

WALK FAMILY LETTER MAD LIBS

- (1) _____
Relative affected by type 1 diabetes (son, daughter, etc.)
- (2) _____
Name of relative affected by type 1 diabetes
- (3) _____
Age at diagnosis
- (4) _____
Average number of finger pricks per day
- (5) _____
Average number of insulin shots/pump infusions per day
- (6) _____
Current age of relative affected by type 1 diabetes
- (7) _____
Name of relative affected by type 1 diabetes
- (8) _____
Number of years since diagnosis x average number of finger pricks per day x 365
- (9) _____
Number of years since diagnosis x average number of shots/infusions per day x 365
- (10) _____
Name of relative affected by type 1 diabetes
- (11) _____
Name of Team Captain
- (12) _____
Team fundraising goal
- (13) _____
Your name (s)

July 30, 2010

Dear Family, Friends and Co-Workers:

We are writing to you on behalf of our (1)_____, (2)_____. At the age of (3)_____ he/she was diagnosed with juvenile (type 1) diabetes. He/She is required to constantly check his/her blood sugar levels by pricking his/her tiny fingers (4)_____ times per day and he/she has to have (5)_____ shots/infusions of insulin per day. Also, he/she must maintain a tightly controlled diet and scheduled food intake. Worst of all, this disease carries with it the risk of life-threatening complications. At age (6)_____ diabetes is part of (7)_____’s everyday life. To this point he has endured (8)_____ finger pricks and (9)_____ insulin shots/infusions. But, as you probably know, insulin is not a cure; it is merely life support.

As parents we try from the moment our children are born to protect them from any harm. We must do everything we can to help find a cure for this disease. The Juvenile Diabetes research Foundation (JDRF) is helping to accelerate diabetes research and we closer to a cure than ever before. JDRF is the largest worldwide organization dedicated to finding a cure for diabetes. Nearly 85% of every dollar raised goes to research and education about research – since 1970 JDRF has provided more than \$1.4 billion dollars to diabetes research worldwide. That is why we have decided to join JDRF and help find a cure for diabetes.

On Saturday, September 25, 2010, we will participate in JDRF’s Walk to Cure Diabetes at Grimsley High in Greensboro. Please help us make a difference for (10)_____ and the millions of other children and adults living with diabetes. There are three ways you can participate:

- You can join our Family Team, which includes family, friends, and co-workers who collect pledges and walk with us on September 25.
- You can send a tax-deductible contribution of any amount, made payable to the JDRF to our home address using the enclosed self-addressed envelope.
- You can contribute via the Internet. Go to www.JDRF.org, click on the green sneaker, and then donate to our team by searching for (11)_____ under the heading “Support a Walker.” Your online donation can be made by credit card and is also tax-deductible.

Our family goal is to raise (12) \$_____ this year for diabetes research. Every dollar will help bring us one step closer to the cure. Thank you in advance for your support, and we hope to see you at the Walk on September 25.

With Thanks,

(13)_____
